

Instructions for Administration:

36 to 41 Months Old

3.1. Gross Motor Items

Note If the child does not perform the gross motor item for their age, but performs a more advanced gross motor item, then the item specific for their age is considered normal.

3.1.1	Jumps from height of 20cm with feet together	Age: 36 - 60 months
Materials	20cm step	
Instructions	Stand the child at a height of 20cm. Encourage the child to jump forward. 	
Response	The child should jump with both feet together. If not able to jump from required height, try at a lower height, i.e., <20cm.	
Grading	Able 20cm with one foot leading <20cm No jumping	

3.1.2	Climbs stairs with alternate feet without holding on	Age: 36 - <42 months
Materials	Staircase	
Instructions	Stand the child at the lower end of the staircase. Put a toy at the upper end. Encourage the child to climb the staircase without support. 	
Response	The child should be able to climb stairs without support (e.g., handrail), with alternate feet.	
Grading	Present Alternate feet, holding rail OR both feet per stair, not holding rail Both feet per stair, holding rail Needs assistance	

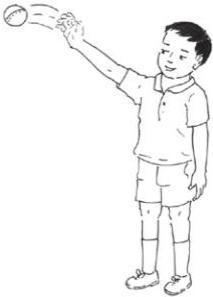

3.2 Fine Motor Items

Note If the child does not perform the fine motor item for their age, but performs a more advanced fine motor item, then the item specific for their age is considered normal

3.2.1	Unscrews lid	Age: 36 - <42 months
Materials	Screw Lid Container	
Instructions	Sit the child on a chair or on a padded surface on the floor. Give the child the small screw lid container which is loosely closed and ask the child to open it. Demonstrate if necessary. 	
Response	Observe if the child can unscrew the lid without clumsiness.	
Grading	Present Clumsily Tries but unsuccessful Does not try	

3.2.2	Laces 2 beads	Age: 36 - <42 months
Materials	2 beads, String	
Instructions	Demonstrate lacing the beads onto the string to the child. Then, offer the child the string and two beads and ask them to lace the beads. 	
Response	The child should be able to lace two beads without clumsiness.	
Grading	Present Laces two beads but clumsily Laces one bead but clumsily No attempt	

3.2.3	Draws a circle	Age: 36 - <42 months
Materials	Paper, Crayon	
Instructions	Sit the child at a table. Place a piece of paper on the table in front of the child. Draw a circle on the paper. Then, place the crayon on the paper, with the writing end pointing away from the child, and ask the child to draw a circle 	
Response	The child should be able to draw a circle or half circle without clumsiness with the preferred hand.	
Grading	Present Incomplete (at least half circle) Tries (holds crayon) Cannot hold crayon	

3.2.4	Throws ball 1.5 metres with one hand	Age: 36 - <48 months
Materials	Plastic ball	
Instructions	The examiner demonstrates to the child how to throw a ball with one hand. Then give the ball to the child and ask them to throw it. The ball should be light and with a minimum size of a tennis ball. 	
Response	Observe the child throwing the ball with one hand at least 1.5 metres.	
Grading	Present One hand, clumsily Two hands, clumsily No attempt	

3.3 Vision Item

Note When smarties or 100s & 1000s are required for Vision items, select colours that contrast with the green cloth.

- Use: Yellow, Orange, Red
- Avoid: Green, Blue, Purple

3.3.1	Fixates on 100 & 1000 from 30cm	Age: 36 - 60 months
Materials	1 100s & 1000s, Green Cloth If no response to 100s & 1000s: Smartie, Yellow Block, Red Ball on String, Compact Mirror, Torch	
Instructions	The child is seated supported upright in the caregiver's lap at a table, which is covered with a green cloth. Show the 100 & 1000 (a <3mm sized sweet) to the child and say "Ooh! Look at this beautiful thing". Place the 100 & 1000 on one side of the table keeping the gaze of the child on it. Then, sweep your hand across the table holding the 100 & 1000, and release it at some point during the sweep of your hand across the table. Observe whether the child fixates their gaze on the released object or not. Test each eye separately by lightly covering each eye. The caregiver can assist. If no response, test with a smartie; then with a 2.5 cm block; then with the 6cm spinning red ball on string; then with a reflecting object; then a torch beam.	
Response	Child fixates gaze on the 100 & 1000 from 30cm.	
Grading	Present Can see non-reflected object of 1.5cm (e.g., Smartie) Can see non-reflected object of >1.5cm (e.g., 2.5cm block) Perceives bright light or reflecting object	

3.4 Hearing Item

3.4.1	Points at pictures	Age: 36 - 60 months
Materials	Set of 6 Hearing Picture Cards	
Instructions	Place the Picture Cards on the table in front of the child in two rows in any order. Familiarise the child to each picture. Ensure that the child is able to recognise the pictures (e.g., by pointing) on verbal command: cow, horse, ball, tiger, elephant, duck. Now, move to a position at the side of the child so that you are out of eyesight and your mouth is 45cm away from their ear. Using a minimum voice, but not a whisper, name three of the six picture cards one at a time. Then, move to the other side and say three pictures. Say the pictures at random on each side to ensure the child has no difficulty in hearing. If the child does not respond to the minimum voice, test in an increasingly louder voice. 	
Response	The child points to, or indicates to, at least one picture when asked.	
Grading	Able at minimum voice Questionable Loud Voice Only No Response	

3.5 Expressive Language Items

Note This domain relies primarily on observation of child vocalisations during the session:

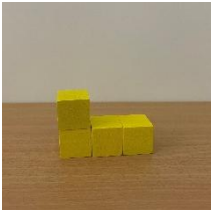

- The examiner must be vigilant in listening for and recording samples of the child's vocalisations throughout the assessment to ensure accurate scoring of the items.
- Interact and speak with the child to encourage vocalisations. You may wish to use real objects or pictures in story books and ask the child to name and describe the pictures.
- If no vocalisations are made throughout the assessment, ask the caregiver if this is typical as it is not uncommon for young children to behave differently in new and unfamiliar situations. Document specific examples of vocalisations reported by the caregiver on the record form.

3.5.1	Three word phrase	Age: 36 - <42 months
Materials	None	
Instructions	Note if the child puts three words together meaningfully to express a thought. For example, "Daddy gone work" or "Mummy eat apple."	
Response	The child is able to put at least three words together to express a thought.	
Grading	Present Two-word phrase ≥4 Single Words 2-3 Single words	

3.6 Cognition Items

3.6.1	Matches three colours	Age: 36 - <42 months
Materials	Blocks (three different colours)	
Instructions	Take three blocks, each a different colour, and place them in a well-spaced horizontal line on the table in front of the child. Name each colour as you do so. Say "Now I am going to find one that is just the same". Select a block from the pool and place it beside its match. Say "Now you find me one that is just the same". This is repeated with several colours. If no response, repeat the procedure three times and consider the response after last demonstration	
Response	Matches three different colours.	
Grading	Present Matches 2 colours Matches 1 colour None	

3.6.2	Builds a train	Age: 36 - <42 months
Materials	4 Blocks of the same colour	
Instructions	Demonstrate to the child how to build a train of four blocks and say: "See my train." Then, break the train and give your blocks to the child and tell the child to build a train like yours. If no response, demonstrate four to five times.	
Response	The child should be able to build a train of four blocks.	
Grading	Present After repeated demonstration (4-5 times) Lines up the blocks (at least 2) Does not try	

3.6.3	Assimilation of noun labels	Age: 36 - <48 months
Materials	5 Objects e.g., Cup, Shoe, Comb, Big and Small Spoon, Toothbrush, Bowl	
Instructions	Place five objects on the table in a horizontal line with a space in between them. Ensure the objects are familiar to the child. Say, for example: 1. "Give me the spoon, the comb and the shoe" while holding hand out, 2. "Put the big spoon in the cup", 3. "Put the comb and the cup in the bowl". If no response, request three times. 	
Response	The child should be able to assimilate three nouns.	
Grading	Present (three nouns) Two noun labels One noun label Cannot follow instruction	

3.6.4	Looks towards an object pointed at by examiner across the room	Age: 36 - 60 months
Materials	Familiar object in environment	
Instructions	Point to any object with which the child is familiar. For example, a ball, doll, or clock, and say "Oh look! There is a ball/doll/clock". If no response, repeat four to five times. 	
Response	The child should look towards the pointed object.	
Grading	Present After repeated cues (>3 times) Attempts, but looks toward incorrect object Does not attempt	

3.6.5	Point at an object when asked	Age: 36 - 60 months
Materials	Familiar object in environment	
Instructions	The examiner asks the child "Where is the doll?" or where any other familiar object in the room is, e.g., "Where is the light?". If no response, repeat four to five times.	
Response	The child points at the requested object.	
Grading	Present After repeated cues (>3 times) Attempts, but points to incorrect object Does not attempt	

3.6.6	Pretend play	Age: 36 - 60 months
Materials	Doll, Tea Set	
Instructions	Give the child a doll and the tea set and ask the child “Can you make a cup of tea?” then feed the doll. Request three times. If no response, demonstrate once. 	
Response	Observe if the child shows any pretend play. For example, makes tea or feeds doll.	
Grading	Present After demonstration Partial attempt (e.g., takes the object) Does not attempt	

3.7 Behaviour Items

Note Observe and record the child's behaviour according to the activities listed under this domain.

3.7.1	Normal sleep patterns	Age: 36 - 60 months
Materials	None	
Instructions	Ask the caregiver about the child's sleep patterns.	
Response	Score according to caregiver's recall. A stable pattern of sleep and wakefulness with a long sleep at night and a nap in the afternoon should have been established. Mild, moderate and severe grades of response are some disturbance, considerable disturbance, or constant problem, respectively. Either the child is sleeping too much or is awake for longer periods of time.	
Grading	Normal sleep patterns Occasional disturbance Considerable disturbance Constant problems	

3.7.2	Displays positive affect	Age: 36 - 60 months
Materials	None	
Instructions	Note the child's affect.	
Response	The grading is done according to the degree of negative affect displayed during the assessment. Positive affect comprises of smiling, laughing, sound making that is perceived as the expression of excitement, happiness or pleasure. Negative affect includes fussing, pouting, whining, crying, vocal or physical expressions of anger.	
Grading	Displays positive affect Sometimes negative Mostly negative Constantly negative	

3.7.3	Good eye contact	Age: 36 - 60 months
Materials	None	
Instructions	Note the frequency of eye contact the child makes with the examiner.	
Response	The child should be making eye contact with persons interacting with them.	
Grading	Present Most of the time Infrequent Never	

3.7.4	Good attention to tasks	Age: 36 - 60 months
Materials	None	
Instructions	Observe the child's focused attention and concentration towards a particular activity. Some children might have attention deficits or attention deficit / hyperactivity disorders that might express themselves at an early age.	
Response	The child displays good attention to tasks during the assessment.	
Grading	Present Most of the time Poor attention but not hyperactive Poor attention and hyperactive	

3.7.5	Cooperativeness	Age: 36 - 60 months
Materials	None	
Instructions	The examiner must make a request to the child such as, "Give me the dolly, please" or "Give the spoon to mummy" and observe the child's co-cooperativeness to respond.	
Response	The degree to which the child willingly responds to the examiner's request to perform tasks is recorded.	
Grading	Present Most of the time Infrequent Never	

3.7.6	Sociability	Age: 36 - 60 months
Materials	None	
Instructions	This item measures the child's degree of socialisation during the assessment, especially with the examiner (who is a stranger).	
Response	The child's degree of sociability with the examiner or caregiver is noted.	
Grading	Present Most of the time Infrequent Never	

3.7.7	No restricted, repetitive, stereotypical behaviour, interest and activity	Age: 36 - 60 months
Materials	None	
Instructions	Observe if the child displays, for example: (a) interest in a particular object (b) motor mannerisms (c) unusual movement of the whole body, e.g., spinning, jumping, rocking (d) unusually strong interest in particular sights, smells, tastes, textures etc.	
Response	The grading is done based on frequency of behaviours: no such observed activity; mild - seldom; moderate - sometimes; severe - frequent	
Grading	No restricted, repetitive, stereotypic behaviour, interest and activity Seldom Sometimes Frequently	

3.8 Seizure Item

Note Seizures which occurred in the neonatal period (first 28 days) are not considered in the rating of seizures after that period.

3.8.1	Seizures (provoked or unprovoked)	Age: 36 - 60 months
Materials	None	
Instructions	Ask caregiver or check medical records to determine whether child has ever experienced a seizure. Seizures are manifestations of neuronal injury due to excessive electrical activity in the brain. Any disturbance in the brain may cause seizures, which may be single or repetitive, and involves a sudden change in behaviour.	
Response	Consider typical if the child has not had a provoked or unprovoked seizure.	
Grading	No seizures (provoked or unprovoked) One or more than one typical febrile fit in the past year One or more than one unprovoked seizure/atypical febrile fit in past year More than one unprovoked seizure/atypical febrile fit in the past week
