

Instructions for Administration:

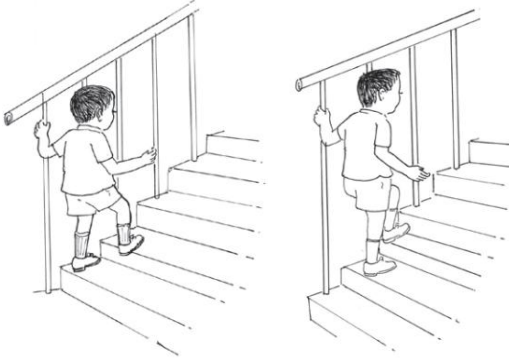

30 to 35 Months Old

Definitions

2.1 Gross Motor

Notes If the child does not perform the gross motor item for their age, but performs a more advanced gross motor item, then the item specific for their age is considered normal.

2.1.8	Jumps from height of 20cm one foot leading	Age: 30 - <36 months
Materials	20cm step	
Instructions	Stand the child at a height of 20cm. Encourage the child to jump forward. 	
Response	The child should jump, with at least one foot leading. If not able to jump from required height, try at a lower height, i.e., <20cm.	
Grading	Present <20cm <15cm No jumping	

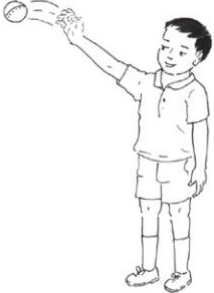

2.1.9	Climbs stairs with alternate feet holding rail	Age: 30 - <36 months
Materials	Staircase, Attractive Toy	
Instructions	Stand the child at the lower end of a staircase. Put a toy at the upper end. Encourage the child to climb the stairs to get the toy.	
Response	Observe if the child is able to climb the stairs while holding the rail, with alternate feet OR if the child can climb stairs with both feet per stair, without holding the rail. If you hold one of the child's hands with your hand, the child's other hand should be free (i.e., not also holding the rail). 	
Grading	Present Climbs stairs holding rail, both feet per stair Needs assistance, both feet per stair Can't climb up	

2.2 Fine Motor Items

Note If the child does not perform the fine motor item for their age, but performs a more advanced fine motor item, then the item specific for their age is considered normal.

2.2.8	Laces 1 bead	Age: 30 - <36 months
Materials	1 bead, String	
Instructions	Demonstrate lacing one bead onto the string. Then offer the child the string and one bead and ask the child to lace the bead. 	
Response	The child should lace a bead using both hands without clumsiness.	
Grading	Present Clumsily Tries but unsuccessful Does not try	

2.2.9	Unscrews lid	Age: 30 - <36 months
Materials	Screw Lid Container	
Instructions	Sit the child on a chair or on a padded surface on the floor. Give the child the small screw lid container which is loosely closed and ask the child to open it. Demonstrate if necessary. 	
Response	Observe if the child can unscrew the lid without clumsiness	
Grading	Present Clumsily Tries but unsuccessful Does not try	

2.2.10	Throws a ball with one hand, 1 metre	Age: 30 - <36 months
Materials	Plastic ball	
Instructions	The examiner demonstrates to the child how to throw a ball with one hand. Then give the ball to the child and ask the child to throw it. The ball should be light and with a minimum size of a tennis ball. 	
Response	Observe the child throwing the ball with one hand at least 1 metre.	
Grading	Present Throws ball with one hand, near Throws ball with both hands Does not attempt	

2.2.11	Draws a line	Age: 30 - <36 months
Materials	Paper, Crayon	
Instructions	Sit the child at a table. Place a piece of paper on the table in front of the child. Draw a horizontal or vertical line on the paper. Then, place the crayon on the paper, with the drawing end pointing away from the child and ask the child to do the same. 	
Response	The child should be able to draw a line without clumsiness with the preferred hand.	
Grading	Present With difficulty Tries (holds crayon) Cannot hold crayon	

2.3 Vision Items

Notes When smarties or 100s & 1000s are required for Vision items, select colours that contrast with the green cloth.

- Use: Yellow, Orange, Red
- Avoid: Green, Blue, Purple

Near vision and watching adults are evaluated separately, but only near vision is considered for the scoring of domain severity. When scoring vision of the child, fixation on objects placed on the tabletop is considered normal response.

2.3.1	Watches moving adult from 3 metres	Age: 12 - <36 months
Materials	None	
Instructions	Stand in front of the child at a distance of 3 metres and draw their attention. Move along an arc around the visual field of the child and observe if the eyes move to track the moving adult. If no response, keep coming closer and observe the distance at which the child's visual attention is engaged.	
Response	Watches moving adult from 3 metres.	
Grading	Present From 2m From 1m From <1m	

2.3.2	Fixates on 100 & 1000 from 30cm	Age: 12 - <36 months
Materials	1 100s & 1000s, Green Cloth If no response to 100s & 1000s: Smartie, Yellow Block, Red Ball on String, Compact Mirror, Torch	
Instructions	The child is seated supported upright in the caregiver's lap at a table, which is covered with a green cloth. Show the 100 & 1000 (a <3mm sized sweet) to the child and say "Ooh! Look at this beautiful thing". Place the 100 & 1000 on one side of the table keeping the gaze of the child on it. Then, sweep your hand across the table holding the 100 & 1000, and release it at some point during the sweep of your hand across the table. Observe whether the child fixates their gaze on the released object or not. If no response, test with a smartie; then with a 2.5 cm block; then with the 6cm spinning red ball on string; then with a reflecting object; then a torch beam.	
Response	Child fixates gaze on the 100 & 1000 from 30cm	
Grading	Present Can see non-reflected object of 1.5cm (e.g., Smartie) Can see non-reflected object of >1.5cm (e.g., 2.5cm block) Perceives bright light or reflecting object	

2.4 Hearing Items

Note Soft whisper - 10 to 25 db; conversational speech - 25 to 55 db; crying baby - 55 to 65 db; rattle - 60 to 80db.

2.4.3	Points at doll's features	Age: 24 - <36 months
Materials	Doll	
Instructions	The child is sitting at a table. Place a sitting doll on the table in front of the child and familiarise the child to the parts of the doll's body. Ensure that the child is able to recognise the following parts on verbal command: nose, mouth, ear, and on the other side: hair, eye, hand. Now move to a position at the side of the child so that you are out of sight and your mouth is 45 cm from the ear. Ask the child to point to body parts of the doll with a minimum voice but not a whisper: eye, teeth, nose on one side. Then, move to the other side and ask the child to point to other body parts of the doll with a minimum voice: hair, hand, and mouth. Ask three body parts at each side at random to ensure that the child has no difficulty in hearing. If hearing test is not possible due to inability of the child to identify doll's features or pictures, then test with rattle or voice from behind the child, out of line of vision at/above ear level.	
Response	The child points at the doll's features at least once when asked.	
Grading	Able Questionable Loud Voice Only No Response	

2.5 Expressive Language Items

Note This domain relies primarily on observation of child vocalisations during the session:

- The examiner must be vigilant in listening for and recording the child's vocalisations throughout the assessment to ensure accurate scoring of the items.
- Interact and speak with the child to encourage vocalisations. You may wish to use real objects or pictures in story books and ask the child to name the objects.
- If no vocalisations are made throughout the assessment, ask the caregiver if this is typical as it is not uncommon for young children to behave differently in new and unfamiliar situations. Document specific examples of vocalisations reported by the caregiver on the record form.

2.5.5	Joins two words together to express a thought	Age: 24 - <36 months
Materials	None	
Overview	This item is an important milestone for speech development and requires the child to put two words together meaningfully. For example, "mummy kiss", "daddy car", "boy kicking".	
Instructions	Note if the child is able to put two words together to express a thought.	
Response	The child puts two words together to express a thought.	
Grading	Present 4 - 6 meaningful words 2 - 3 meaningful words Single meaningful word	

2.6 Cognition Items

2.6.11	Looks towards an object pointed at by examiner across the room	Age: 18 - <36 months
Materials	Familiar object in environment	
Instructions	Point to any object with which the child is familiar. For example, a ball, doll, or clock, and say "Oh look! There is a ball/doll/clock". If no response, repeat four to five times. 	
Response	The child should look towards the pointed object.	
Grading	Present After repeated cues (>3 times) Attempts, but looks toward incorrect object Does not attempt	

2.6.12	Points at an object when asked	Age: 18 - <36 months
Materials	Familiar object in environment	
Instructions	The examiner asks the child "Where is the doll?" or where any other familiar object in the room is, e.g., "Where is the light?". If no response, repeat four to five times.	
Response	The child points at the requested object.	
Grading	Present After repeated cues (>3 times) Attempts, but points to incorrect object Does not attempt	

2.6.15	Assimilation of noun labels	Age: 24 - <36 months
Materials	5 Objects e.g., Cup, Shoe, Comb, Spoon, Sock	
Instructions	Place five objects on the table in a horizontal line with a space between them. First, make sure, by asking the caregiver, whether the objects are familiar to the child. Say, for example, "Put the spoon in the cup"; "Put the sock on the shoes". Take care not to eye point the object named (i.e. direct your eye gaze toward the object) or indicate the object by the position of your hand. Place each object back in the line before naming another. Repeat four to five times if no response.	
Response	The child should be able to make associations between two nouns.	
Grading	Present With repeated prompting (>3 times) At the one-noun level only Cannot follow instruction	

2.6.17	Matches shapes on puzzle board (circle, triangle, square)	Age: 24 - <36 months
Materials	Shapes Puzzle Board	
Instructions	Sit the child at a table. Place the pieces correctly in the board, holding it in your lap or under the table so that the child does not see you insert them. Place the Puzzle Board on the table, directly in front of the child. Remove each shape while the child is watching and say, "I am taking them out". Place the pieces between the board and the child in the following order starting from the child's left: square circle, triangle. Gesture towards the board and say invitingly, "(child's name), put them in". Do not point directly to the holes. If no response, repeat this procedure four to five times and score the response after the last demonstration.	
Response	The child is able to match the shapes and put all three shapes in their appropriate places in the board.	
Grading	Present With repeated demonstrations (>3 times) One shape None	

2.6.18	Pretend play	Age: 25 - <36 months
Materials	Doll, Tea Set	
Instructions	Give the child a doll and the tea set and ask the child “Can you make a cup of tea?” then feed the doll. Request three times. If no response, demonstrate once. 	
Response	Observe if the child shows any pretend play. For example, makes tea or feeds doll.	
Grading	Present After demonstration Partial attempt (e.g., takes the object) Does not attempt	

2.6.19	Builds tower of eight blocks	Age: 30 - <36 months
Materials	8 Blocks of the same colour	
Instructions	Sit the child at a table. Demonstrate to the child how to build a tower of eight blocks and say “See my tower”. Then, break the tower and give your blocks to the child and ask them to build a tower like yours. Once the child has begun to build, encourage them to continue (e.g., offering and/or saying “Here is another one”). If there is no response, place one block in front of the child and put another block into the child’s hand. Say “Put it on top” pointing to the first block. Repeat. Demonstrate a maximum of four to five times. 	
Response	The child builds a tower of eight blocks.	
Grading	Present Builds tower of <8 blocks Builds tower of <5 blocks None	

2.6.20	Identifies 5 pictures from Picture Card	Age: 30 - <36 months
Materials	A4 Picture Card with 10 Pictures (Book, Mug, Star, Clock, Shoe, Bucket, Leaf, Flag, Dog, House)	
Instructions	Sit the child at a table and place the A4 Picture Card on the table in front of the child. The side of the Picture Card with 6 pictures should be facing up to begin. Ask the child to identify pictures by stating "Where is the ____?". The child should respond by pointing or gesturing to the picture. Ask the child to identify 3 to 4 pictures before flipping the A4 Picture Card over and asking the child to identify 2 to 3 more pictures.	
Response	The child should identify at least five of the ten pictures.	
Grading	Present ≥ Two pictures One picture None	

2.6.21	Matches three colours	Age: 30 - <36 months
Materials	Blocks (three different colours)	
Instructions	Take three blocks, each a different colour, and place them in a well-spaced horizontal line on the table in front of the child. Name each colour as you do so. Say "Now I am going to find one that is just the same". Select a block from the pool and place it beside its match. Say "Now you find me one that is just the same". This is repeated with several colours. If no response, repeat the procedure three times and consider the response after last demonstration	
Response	Matches three different colours.	
Grading	Present Matches 2 colours Matches 1 colour None	

2.7 Behaviour Items

Note Observe and record the child's behaviour according to the activities listed under this domain.

2.7.5	Good eye contact	Age: 12 - <36 months
Materials	None	
Instructions	Note the frequency of eye contact the child makes with the examiner.	
Response	The infant should be making eye contact with persons interacting with them.	
Grading	Present Most of the time Infrequent Never	

2.7.6	Good attention to tasks	Age: 12 - <36 months
Materials	None	
Instructions	Observe the child's focused attention and concentration towards a particular activity. Some children might have attention deficits or attention deficit / hyperactivity disorders that might express themselves at an early age.	
Response	The child displays good attention to tasks during the assessment.	
Grading	Present Most of the time Poor attention but not hyperactive Poor attention and hyperactive	

2.7.7	Cooperativeness	Age: 24 - <36 months
Materials	None	
Instructions	The examiner must make a request to the child such as, "Give me the dolly, please" or "Give the spoon to mummy" and observe the child's co-cooperativeness to respond.	
Response	The degree to which the child willingly responds to the examiner's request to perform tasks is recorded.	
Grading	Present Most of the time Infrequent Never	

2.7.8	Sociability	Age: 24 - <36 months
Materials	None	
Instructions	This item measures the child's degree of socialisation during the assessment, especially with the examiner (who is a stranger).	
Response	The child's degree of sociability with the examiner or caregiver is noted.	
Grading	Present Most of the time Infrequent Never	

2.7.9	Displays positive affect	Age: 25 - <36 months
Materials	None	
Instructions	Note the child's affect.	
Response	The grading is done according to the degree of negative affect displayed during the assessment. Positive affect comprises of smiling, laughing, sound making that is perceived as the expression of excitement, happiness or pleasure. Negative affect includes fussing, pouting, whining, crying, vocal or physical expressions of anger.	
Grading	Displays positive affect Sometimes negative Mostly negative Constantly negative	

2.7.10	Normal sleep patterns	Age: 25-<36 months
Materials	None	
Instructions	Ask the caregiver about the child's sleep patterns.	
Response	Score according to caregiver's recall. By 25 months, a stable pattern of sleep and wakefulness with a long sleep at night and a nap in the afternoon should have been established. Mild, moderate and severe grades of response are: some disturbance, considerable disturbance, or constant problem, respectively. Either the child is sleeping too much or is awake for longer periods of time.	
Grading	Normal sleep patterns Occasional disturbance Considerable disturbance Constant problems	

2.7.11	No restricted, repetitive, stereotypical behaviour, interest and activity	Age: 25 - <36 months
Materials	None	
Instructions	Observe if the child displays, for example: (a) interest in a particular object (b) motor mannerisms (c) unusual movement of the whole body, e.g., spinning, jumping, rocking (d) unusually strong interest in particular sights, smells, tastes, textures etc.	
Response	The grading is done based on frequency of behaviours: no such observed activity; mild - seldom; moderate - sometimes; severe - frequent	
Grading	No restricted, repetitive, stereotypic behaviour, interest and activity Seldom Sometimes Frequently	

2.8 Seizure Item

Note Seizures which occurred in the neonatal period (first 28 days) are not considered in the rating of seizures after that period.

2.8.1	Seizures (provoked or unprovoked)	Age: 12 - <36 months
Materials	None	
Instructions	Ask caregiver or check medical records to determine whether child has ever experienced a seizure. Seizures are manifestations of neuronal injury due to excessive electrical activity in the brain. Any disturbance in the brain may cause seizures, which may be single or repetitive, and involves a sudden change in behaviour.	
Response	Consider typical if the child has not had a provoked or unprovoked seizure.	
Grading	No seizures (provoked or unprovoked) One or more than one typical febrile fit in the past year One or more than one unprovoked seizure/atypical febrile fit in past year More than one unprovoked seizure/atypical febrile fit in the past week
